

## ADVANCED PROGRAMMING PRACTICE (21CSC203P)

Unit – 2 : Session – 12 : SLO – 2 | Using Packages

Name: ADITI SINGH ADITI SINGH | Reg. No: RA2511003012047 | Solved Worksheet

---

### Activity (Solutions)

- Snippet A: prints a random integer between 0 and 9 (inclusive) — e.g., 7; the exact value varies per run because `rand.nextInt(10)` is random.
- Snippet B: prints 25 — `c.square(5)` computes  $5 \times 5$  from the user-defined `mymath.Calculator` class.
- Snippet C: prints the current date in ISO format (yyyy-MM-dd) — e.g., 2025-09-21, whatever `LocalDate.now()` returns on the day it runs.
